Mary Olga,

I have your offer from last week on the proposed order and agree with some of your analysis but not all of it. It is my feeling we are entitled to argue the form and content of the order to the Court and would request notice before it is submitted. I am uncertain when that can be done but please confirm my availability before you set the hearing. In the mean time my client knows the temporary injunction is in place.

Also, we have tried to locate Camellia Joseph on multiple occasions and have not been successful. I feel like I remember you agreeing to have her on call and available in the past. Can you possibly help with producing Camellia Joseph so that we can have her served? Please let me know.

Thanks,
Wally
