Subject: RE: Recent filings

Wally

I have tried with all the ability I can draw upon to not look at this personally. The multiple grievances against Mo Lovett, Wendy Burgower, and one even against Bobby Newman **exhibits a pattern of truly sick behavior**. Add to calling Mo and my son fat, accusing essentially Wendy of being a lesbian and numerous other acts to many to list is further evidence.

I have tried to convince myself that these actions, including the fiasco of the continuance, was Dan and not you. This filing today of your latest unsigned response is the straw that has broke this camel's back. If you and Dan want to go after my son and me we will be prepared You know better than to make this accusation. You are the one who filed a motion with the Court of Appeals claiming a deadline of 30days. All this order did , which you obviously knew already, was comply with the ruling of the Mandamus.

From this point forward any action , whether against Wendy, Mo , Rob, or me, I hold you responsible. I can not speak for Mo or Wendy and it is for them to respond or not with their position.

I remember after you nonsuited Dan's case after the 194 issue. You were clearly and understandably stressed. You had another trial in Fort Bend county and I told you I would help with the schedule. My reward was the bogus continuance and all this garbage. You said the other day that "we all act as if you weren't there Dan wouldn't be getting someone else to do this".

I believe in zealously representing my client's position. **The difference here, in cases like this, with a client like yours, I would have been gone long ago**. I wish there was something I could say or do to get through. I really valued our professional relationship for many years. Sadly, I can't imagine I can.

Really , Wally just read your response to Mo.
