

Mary Olga,

Your positions will never cease to amaze me and your thought processes on this case seem very out of touch with reality. Working for mine means I will do what I need to do to protect my client within the rules. This is a further example of your totally irrational thinking and I am very concerned for my client's safety also. I could care less whether you understand that or not but what you have done to this family is abominable and you really should be ashamed.

There is no need for us to talk further I have my opinion and you will not be changing yours so lets just agree to get move forward to a trial.

Best regards,
Wally

Well If "working for yours" means threatening us all with baseless bar grievances in your pleadings (and going so far as to ask the court to refer us) then you are not the sort of person that would make sense of anything I say. Sorry for your confusion.

Mary Olga,

I do not know what you are talking about. You e-mail makes no sense and I would expect you to work for your client just as I will work for mine.

Wally
