Wally

Your client continues to **make incorrect charges against all the attorneys and the Court in this case**. You are attorney of record.

Not only are frivolous allegations of wrongdoing being made , when there is none , now we receive you and your client's latest motion.

I can come to no other conclusion is that this is done with your blessing. Otherwise the Wally Mahoney that I use to know would have

long ago withdrawn from the case. You know these things are not true. **For whatever it is worth I am truly disappointed.**
